23rd April 2024

Enhancement

- **COMM-1595** - Resource component Enhancements - Set filter and anchor link nav using deep link.
  Authoring guide URL: https://buildeasy.bms-preview.com/author-guide/home/resource-component.html
- **COMM-1592** - Treatment locator Integration
  Authoring guide URL: https://buildeasy.bms-preview.com/author-guide/home/locator-component.html
- **COMM-1701** - Resources Component UI Enhancement: Enable grid layout, Optional Filters/filter variations, Video overlay with title and description.
  Authoring guide URL: https://buildeasy.bms-preview.com/author-guide/home/resource-component.html
- **COMM-1798** - Slider New Component
  Authoring guide URL: https://buildeasy.bms-preview.com/author-guide/home/slider-component.html

Defects

- **OC-2663** - Defect - Mobile Menu should cover "select cancer type" – indication dropdown has been made sticky and corner cases around are fixed.
- **OC-2667** - Defect - Expanded ISI should not cover Global Nav – ISI when expanded should be shown till below the main nav. Corner cases around it have been fixed.
- **NCIAW-25** - In cards component: <p> tags are showing in the headline when "Extra Small" cards are selected. Cards issue fixed to not show HTML tags.
  Authoring guide URL: https://buildeasy.bms-preview.com/author-guide/home/cards-component.html
