

BuildEasy v1.4 - Release Notes

8th August 2023

New Features

- [COMM-1077](#) – New Variation for Main Navigation – “Flat” variation. Ideal to be used when we have limited Navigation items
- [COMM-1084](#) – New Page not found component to be used on 404 Page.
- [COMM-1078](#) – New Facts and Figure variation to achieve design used in <https://www.psoriasis-initiative-ich.de/psoriasis-lebensqualitaet-psyche-depression>

Enhancement

- [COMM-1080](#) - User will have the option to declare 2 more Scope Colors as Brand 3 and Brand 4
- [COMM-1079](#) – Enabled h4, h5, h6 tags in all components using Rich Text

Defects

- **Main Navigation** –
 - Highlight parent link when user visit a Child Page
 - Only active parent should be Bold, not all the Main Nav links
- **Header component** – AEM code fix (UI getting distorted when Logo is not authored)

Issues

N/A

Notes
