

BuildEasy Release notes

New features, enhancements & bug fixes.

BuildEasy v1.22 - Release Notes

14th December 2023

Enhancement

- **COMM-1417** - Footer Enhancement changes
- **COMM-1549** - Main Navigation Component Enhancement

Defects

- **DEBEPO-18:** Filters in Cards component and Sorting – user should be able to sort in alphabetical order. The cards filter should work properly.
- **DEBEK-4** - References not going to correct place when tool tip is inside accordion.
- **IOCH-32** - Build Easy www.bmsplus.ch - Product page table issues (MOBILE)
- **CCUW-3** - Footnote is not reflecting properly in Page head.
- **DESMBE-10** - UAT 1: Functional Bugs
- **HDP-9** - CTA button overlapping nav on scroll.
- **DEBE-10** - Experience Fragment: Multiple videos not working properly.

Issues

N/A
