

BuildEasy v1.9 - Release Notes

19th September 2023

New Features

- **COMM-1150** – Anchor Component
- **COMM-1122** – Horizontal Rule

Enhancement

Defects

- **COMM-1186** - Wrong image section displayed Image resize issue in card component.
- **DESB-15 - Search Component** - Featured Search component. Search results images shown as undefined, pdf link redirection is fixed.
- **DEBEBO-6**: PDF not reflecting images.
- **COMM-1189** - Search results different from Sirius. For search results description ellipsis added in case of lengthy text.
- **DEBEBI-3** - Title: Colour Scope in large image gallery and download list and video player component.
- **DEBEPO-3** - Second level list in Image Text component is behaving like accordion.
- **COMM-1183** - External Site Pop-up - Display issue in mobile. Font family changes and external link warning modal alignment changes.
