

BuildEasy v1.5 - Release Notes

31st August 2023

New Features

- **COMM-1069**- Enabled Image, Rich Text, Responsive Column Control and 2 Column components with all features.
- **COMM-1085** – Display Gigya/DocCheck Login screen as Modal Pop Up.
- **COMM-1156** – Most issues will resolve as part of COMM-1085. Along with that we have also fixed the layout issue occurring post login.

Enhancement

- **Search and Search Results – DESBEID-8** – Headline color updated to Base Heading
- **Main Navigation - COMM-1060** – User can select different Main Navigation Background and Text Colors

Defects

- **Universal Navigation Component – COMM-1155** – Expanded and collapsed buttons are not authorable
- **COMM-1131** – Scope colors aligned for Page Head, Image Text, Cards, Main Nav
- **DESBE-25** – Spacing issues fixed in References/Footnotes section.
- **DESBEID-7** – Breadcrumb and Content Navigation minor fixes – issues related to blank spaces in content navigation, breadcrumb alignment across sites and page head scope color issues have been fixed.
- **DESBEID-15** – Profile icon will not be visible if profile page is not authored
